

# PULSE OIL METERS

## PULSE OIL METER – 1/2” IM012P-01

### TECHNICAL SPECIFICATIONS

- IM012 meter with pulse output only
- Suitable for oils up to SAE 140, automatic trans fluid, engine oil, gear oil, hydraulic oil coolant, diesel, kerosene
- Includes 1m fly lead either reed switch and/or half effect sensor
- Flow range up to 1 – 30LPM
- Accurate reading to +/- 0.5% with maximum pressure to 6,900kPa (1,000psi)
- 1/2" BSP (F) inlet/outlet ports

## PULSE OIL METER – 3/4” IM019P-01

### TECHNICAL SPECIFICATIONS

- IM019 meter with pulse output only
- Suitable for oils up to SAE 140, automatic trans fluid, engine oil, gear oil, hydraulic oil coolant, diesel, kerosene
- Includes 1m fly lead either reed switch and/or half effect sensor
- Flow range up to 3 – 80LPM
- Accurate reading to +/- 0.5% with maximum pressure to 10,350kPa (1,500psi)
- 3/4" BSP (F) inlet/outlet ports
