

Banlaw

Integrated transfer, measurement, control equipment and systems to manage high value liquid resources. Manage, Mitigate, Eliminate Risk with Banlaw.

Bintech

Since 1993, Bintech has supplied and manufactured high-quality process control instrumentation for hazardous and non-hazardous applications.

Ebsray

Along with Blackmer, they design & manufacture a comprehensive program of sliding vane positive displacement pumps for a wide range of industrial applications.

Enretech

A range of Australian-made, organic, cost-effective, and eco-friendly spill solutions that are ideal for your workplace and the environment.

Facet

75+ years of experience in filtration technology for Aviation fueling, Facet engineer solutions for a wide range of commercial and military aviation applications.

Fill-Rite

Offers the most rugged and reliable brand of high-value pumps, meters, and accessories for your fluid dispensing needs.

Flexworks

An integrated underground fuel transfer and containment system, with high level performance, ease of installation and containment protection.

Flomec

Solutions for flow measurement and process control in a wide range of flow meter technologies including positive displacement, ultrasonic, mag and turbine.

Graco

A world class leader of fluid management products and packages who manufacture equipment to move, measure, mix, control, dispense and spray fluids.

Hannay

Offers thousands of hose & cable reels that help improve efficiency, productivity and safety in your operation by keeping hoses and cables organised and off the floor.

Kolor Kut

Manufacturer of indicator pastes for the petroleum sector used to assist operators in the accurate detection of fuel & water levels when dipping fuel tanks.

Liquip

Supplies equipment for storing and transferring bulk liquids such as petroleum and dry bulk and specialising in terminal, tanker and aviation markets.

Macnaught

Expert manufacturers of world class grease, oil and fuel equipment, hose reels & positive displacement flow meters.

OPW

Designs, manufactures, tests and provides components and products to protect the environment and the consumer at fuelling sites.

Pall

The world's largest, most diverse filtration, separations & purifications company. Improve fluid quality and achieve lowest maintenance costs with Pall filters.

Sewon

Sewon have developed various type of venting & safety devices. Their P&V's and flame arresters are reliable, and well designed to protect storage tanks.

Shako

A leading air solenoid valve manufacturer and supplier specializing in all kinds of pneumatic solenoid valves, including 12VDC, 24VDC and 220VAC.

TCS

Total Control Systems manufactures piston and rotary positive displacement flow meters, for use in the petroleum, chemical and agricultural industries.

Todo

Safe and easy to use with minimum operator intervention, Todo offer an unbeatable combination of technical, safety and performance features.

ZVA

Comprises hoses, fittings, couplings, nozzles and hose reel solutions for the transfer of dangerous goods and sensitive fluids (refuelling equipment)

Proudly serving Western Australia since 1987
... and still WA owned and operated!
